OIA-034/83
23 February 1983

STAT MEMORANDUM FOR: [] Associate Director, NPIC
STAT FROM : []
Director, Imagery Analysis
STAT SUBJECT : OIA Secure Communications Requirements
[]

1. To assist the DPG in planning for the support of tenant needs, this memorandum presents OIA's secure communications requirements through FY 1989. The communications scenario we have prepared is based upon our best estimate of future personnel strength and upon descriptions provided by the DPG of systems that are still under development. Because this scenario reflects our current judgment of untested systems, the numbers contained in the attachment may change as these systems evolve.

2. What follows is a breakdown into four categories of all secure communications systems that OIA believes necessary to fulfill its mission. Included is a description of the approach the Office will take in distributing these systems among its personnel.
